

Satellite radio is used only by those who freely CHOOSE to use a service provided in a free market society.

The fall of the USSR, socialism, even communist China, now leaning toward capitulism, PROVES restriction of free enterprise does not work!!!!

The very fact the NAB hides behide Government, and tries to eliminate competition through Government, rather than attempt to provide better service, reflects their ignorance and contempt of our GOD given rights!

Support our GOD given freedom Americans have died for. Support Americans RIGHT to infomation where ever they choose to obtain it. Support Satellite radio!

God bless America
